PROFILE

Front-end developer with a strong foundation in HTML5, CSS3, and JavaScript, with additional experience in React.js and Vue.js. I specialize in building responsive, accessible, and user-friendly web interfaces, focusing on clean, maintainable code and performance optimization. I'm comfortable taking on QA / manual testing work — cross-browser, responsive, and functional checks — alongside development.
Always eager to learn, I stay up to date with modern front-end tools and best practices, striving to deliver high-quality results. Responsible and detail-oriented developer, a fast learner who is always eager to grow and improve.

WORK EXPERIENCE

2025 - PRESENT
OCEAN BLUE DIGITAL (USA / remote)

Web Development Project Manager

- Coordination of workflow between web developers and designers, ensuring smooth collaboration and on-time project delivery.
- Creation, assignment, and management of tasks in ClickUp, including definition of requirements, priorities, and deadlines.
- Communication with clients via email to gather requirements and feedback, translating them into actionable tasks for the team.
- Monitoring of project progress and tracking of task and milestone completion to ensure timely delivery.
- QA testing of completed web pages, including verification of forms, links, and responsive layouts across multiple devices.

2025 (8 months)
LoftFilm (Germany / remote)

Web Developer

- Development and customization of complex, high-performance websites using WordPress (Elementor), HTML5, CSS3, and JavaScript.
- Collaboration with designers, project managers, and technical reviewers to deliver polished, client-ready websites.
- Implementation of speed and SEO optimizations, improving website performance and search visibility.
